

Application of David Zahner (Serial No. 09/916,603)
Amendment after Allowance dated November 23, 2004

Remarks

Further to the Notice of Allowance in this matter, Applicant hereby requests Amendment of the Specification to correct numerous minor typographical errors as set forth above. In addition, formal drawings are included herein, with minor additions having been made thereto as well. Namely, reference numeral 6 has been added to Figure 1; reference numeral 256 has been added to figure 12; and reference numerals 388a and 388b have been added to Figure 17; to include reference numerals listed in the specification which were previously inadvertently omitted from the drawings.

In addition, during review of the application in connection with the present payment of the Issue Fee, it was noted that the first sentence of the specification needs to be amended to set forth the relationship between this application and the priority applications. For example, although the fact that this is a continuation application of its parent was listed on the transmittal letter of the application as filed, and was set forth in the filing receipt, it was not set forth in the first paragraph of the specification. An amendment to the specification is set forth above, and A Petition to Accept Unintentionally Delayed Priority Claim is enclosed herewith.

Dated: November 23, 2004

Respectfully submitted,

Morris E. Cohen (Reg. No. 39,947)
